kindly suggest a few games that could be indulged in by a party of about twenty-five persons. I Anarchists and Communists at the Auton-omic Club yesterday was attended by dancing we have to depend on parlor games for the entertainment of our guests. HOSTESS. Call Her Audrey.

To the Editor

I have been having a guessing contest on doll, to name her, for which I would very much like you to be godfather. She is a very er of Chinon, southwest of Tours, went young lady, and all seem to thing she would to his country house, at Fonteville, on like to have "The Evening World" for sponsor. Will you kindly name her for me?

The Queen's Descendants. The Queen has now fifty-seven descendants, of whom four are, or have litle page of her been, sovereigns-the Empress Frederick, London, in 1740, the Emperor William, the Duke of Edinburgh and the Grand Duke of Hesse, of Marlbord Nine others are heirs apparent—the Prince soldier and drag of Wales, the Duke of York, the Ger- proofs of an un man Crown Prince, Prince Albert of bravery." of Saxe-Meiningen and the Duchess of Duchess of Hesse may be remembered.

Apple Jelly.

is one of our most excellent fruit jellies, and set to cool. and it is a standard dependence of the tablespoonful of French cook in the preparation of fruit little cold milk, ples and various other desserts. Apple eggs, a little salt jelly is best prepared from time to time sugar, a small as it is needed, though there is no ob- pour it into one jection to having two weeks' supplies in boil a few minu the house for fruit ples and general use. Serve cold. For an apple jelly select a dozen firm, well-flavored apples. Fall pippins make an excellent jelly, but almost any well flavored, slightly tare apple will do for this purpose. Do not peel the apples, but cut them into perfect quarters, leav ing the core in, but removing any wormy specks. Partially decayed apples are un fit for this purpose. Pour a pint of cold water over them and slice in half a lemon. Put them in a porcelain-lined ketminutes, and then strain them through a fine sleve or a coarse cloth. Add sugar in the proportion of a pound to every pint of juice. Let the sugar and apple juice boll together for twenty minutes Then test the mixture and as soon as i

Raising Queen Bees.

forms a jelly pour it into cups.

Mrs. Jennie Atchiey, of Beeville, Bee County, Tex., has 800 colonies of bees, de-blond-voted entirely to queen rearing. She is duels. the most extensive breeder of queen bees in the world. She is a woman of thirty eight, and has eight children, w. 1 whos help she does all the work in her aplary Celery Mayonnaise.

A celery mayonnaise is an excellent boil away. Put saind. If your menage is a modest one dish, put on a p and you cannot compass a sorbet, substi- and let it cool tute shaddocks. Cut through each one in clous dish for te half crosswise, severing it not from pole wiches. to pole, but at the equator, if I may be allowed this illustration. This will make it easy for you with a small silver spoon to extract all the seeds. Be careful to backed by feat do this thoroughly. Now you may treat on gold hairplas them in any one of the ways mentioned: with full dress. Fill the seed vessels with sifted powdered sugar and set on the ice until very urique beauty cold. Scrape out the pulp carefully and mix that of each half orange with a brilliants as or tablespoonful of sugar and one of claret; return it to the shell, and chill thor- than ever-cr oughly.
